In [1]:

```python
# Write a program to print the square of two numbers from a given list l=[2,4,6,8,10] using
```

In [2]:

```python
#given list
l = [2,4,6,8,10]
```

In [4]:

```python
print('Displaying square of all numbers in the list: ')
for num in l:
    print(num**2)
```

```
Displaying square of all numbers in the list:
4
16
36
64
100
```
